complete: true/false
tier1 superintendent: users.id
tier2 supervisor: users.id
tier3 manager? : users.id

will include date?

might be easier with a date: ?

one of six. drop down in sur

can be null. for 1-on-1

SQL calc off this? even possible.

superintendent_signoff:
supervisor_signoff:
manager_signoff:

true
default - false
null.
